

CORK

# QUEENSTOWN AND PORT OF CORK INNER SHEET

REVISED BY STAFF CAPTAIN W. E. ARKINGTON, R.N.

*Soundings in fathoms by the Cork Harbour Commissioners 1878.  
Topography is taken chiefly from the Ordnance Survey.  
St. Michael's Church, Elizabeth, Lat. 51° 55' 42" N, Long. 10° 25' 12" W.  
All soundings are true (1880-1885) and are given from Lowest  
Tide, unless otherwise stated, and include average low water.  
All other heights are expressed in feet above High Water Springs.  
For abbreviations see Admiralty Chart 1078.  
SOUNDINGS IN FEET  
Natural Scale 1:100,000*

IRELAND, SOUTH COAST

Scale of Lengths

**Tidal Information and Chart Dates**

Place	Height above datum of soundings				Datum to which soundings are referred and Remarks
	High Water	Low Water	Mean Springs	Mean Neaps	
Queenstown	12.1	10.1	11.1	9.1	Mean Low Water Springs
Port of Cork	12.1	10.1	11.1	9.1	Mean Low Water Springs
